Communications and Other Business:

- Patrice Scott noted that the Board now has a new handbook for local officials.
- Brian Murphy stated that this is the latest version and there have been no other flyers or communications delivered for the Board.
- Howard Burnham asked Patrice Scott if she could discuss her meeting with the Selectboard.
- Patrice Scott stated that she went to the Selectboard to ask for their help with finding alternates for this Board. She also discussed with the Selectboard the enforcement mechanisms and was told their inspections are ongoing. She stated that the Fire Chief can decide to do an inspection, however the landlords can decline these inspections.
- Brian Murphy stated that a building permit does grant access. For rental situations the tenants of the property can call the Fire Chief or himself for a health and safety inspections, however there is nothing that opens the door for this. He noted an example of the Fire Chief running through a rotation of yearly inspections of places of assembly or businesses and they comply with this procedure. The landlord, tenant situation is constitutional due to the fourth amendment. On good authority one could obtain a search warrant, however that person would have to meet the evidence rules to obtain such a warrant.
- Howard Burnham stated that if you go on to the PSU website and they note 8 occupants, isn't this enough to search the premises.
- Brian Murphy noted that it really depends on the residence. Some of the properties depending on the type have a higher occupancy and some are also grandfathered in as well.
- Howard Burnham asked if a landlord bought a property that rents to four people and they allow six people could they be inspected.
- Brian Murphy stated yes as they are in violation of the Zoning Ordinance. This is not the only trigger. They would be contacted by a letter from Brian Murphy stated that they are in violation of the Zoning Ordinance and to contact him. It would then be followed by watching the property to make sure the changes are being made before the next step happens.
- Howard Burnham noted there was a problem with 3 Merrill Street. He noted that Stoppe referred to this property as a rooming house and that it is stated otherwise on the PSU website.

- Brian Murphy stated that he had done the inspection on this property and that they conformed to what the Board had determined.
- Patrice Scott mentioned that there was a meeting with the Selectboard and Town Counsel with citizens and their concerns and how to enforce the zoning rules. She noted all Boards were invited to attend and just mentioned this to let everyone know there are other forums to discuss these matters.

- Freeman Plummer made a motion to adjourn, seconded by Howard Burnham. All in favor.
- Patrice Scott adjourned the meeting at 7:12pm.
